

KEYBOARD TRAYS and Mechanisms

Harmony Tray—KOHT.23 (no mouse) / KOHTM.23 (with mouse)

Harmony is a premium keyboard tray. The mouse deck easily adjusts for left and right hand use. This ergonomically shaped, stable, low profile tray provides the support needed in an aesthetically pleasing design.

Built in features include anti-skid grip strips to help prevent keyboard slippage, a built-in mouse cable manager, a plug in foam-gel wrist rest, a universal mounting pattern plus an ergonomic pull handle for easy handling. An optional 3-forward position sliding mouse deck is also available.

HDPE "Green" Tray—KOHDPE (no mouse) / KOHDPEs (with mouse)

In response to requests for more "green" products, we have added the HDPE Keyboard Tray to our offering. This keyboard tray is fully recyclable and where possible, its components are made from recycled materials as well.

Made from 1/2" thick high density polyethylene with a textured finish, this keyboard tray is not only environmentally friendly, it's also aesthetically pleasing. It offers a 26" wide tray with off-set mounting holes for left and right mounting configurations as well as a full length gel-feel foam palm rest and anti-skid strips. Swivel mouse tray is also available.

KBA.8438D

The Momentum Arm in the standard length is perfect for users who need a solid support and fast position-changing capability, or in workstations that accommodate multiple users.

MEASUREMENTS

5.5" Neck
Height Above: 2.50"
Height Below: 5.87"
Positive Tilt: 15°
Negative Tilt: 15°
Rotation: 360°

KBA.8428D

The Momentum Arm in extended length is ideal for corner-mount locations. It provides a solid platform with fast position-changing capability.

MEASUREMENTS

7.5" Neck
Height Above: 3.00"
Height Below: 7.75"
Positive Tilt: 15°
Negative Tilt: 15°
Rotation: 360°

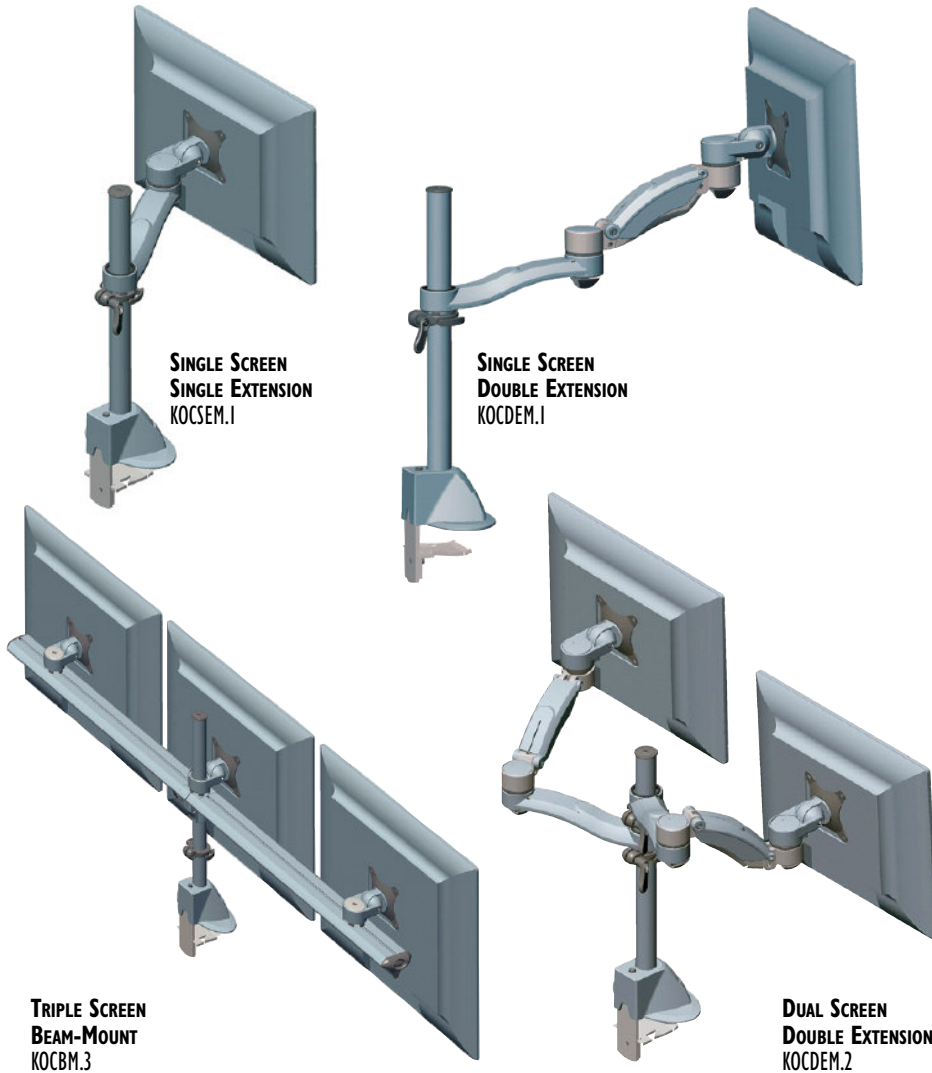

KBA.8458D

The Momentum Arm in sit/stand version is the perfect choice for those who like to vary their positions and have the option of working in a standing position.

MEASUREMENTS

Height Above: 6.20"
Height Below: 6.00"
Positive Tilt: 15°
Negative Tilt: 15°
Rotation: 360°

MONITORARMS and CPU Slings

Concerto

An era is ending. Bulky CRT monitors are history. Thin, flat panel displays are taking their place. The Concerto flat panel display support system is the perfect solution for holding a single display over a desk, or floating up to three around a workstation.

Concerto's refined aesthetics, modular construction and intuitive design make it unmatched in the marketplace.

The Concerto design allows displays to tilt 180 degrees, swing 180 degrees side-to-side

and rotate 360 degrees. The spring-assisted height adjustment option allows free-floating displays which is ideal for sit-to-stand applications. A simple pole adjustment provides 13" of range on a 16" pole and makes it easy to achieve ergonomically perfect positions.

The patented Quick Connect allows fast, efficient installations while requiring a tool for removal, making displays theft-resistant.

The Economy CPU holder is the solution for those individuals on a fixed budget such as students and small companies. It mounts easily to the underside of the work surface and is adjustable to either a vertical or horizontal position. Stores your CPU under the desk and off the floor. 9.8"-15.4" high by 5.5"-9.8" wide.

The standard CPU holder offers increased stability and clamping force and stores on a plastic glide track. The knob control easily adjusts the clamp. Can be side mountable to increase distance between the CPU and the floor. 360° swivel allows for easy access to rear panel connections. 12.5"-22.5" high by 3.5"-9.3" wide.

The standard CPU holder can also be specified with a heavy-duty lock to secure your CPU. The 360° swivel feature allows for easy access to rear panel connections. Mounts vertically on a plastic glide track. 12.5"-22.5" high by 3.5"-9.3" wide.

The Easy Cinch CPU holder incorporates a strap tensioning device for quick installations. An internal ratchet system provides tension to the straps to hold the CPU securely in place. Swivels 360 degrees.
