P.O. Box 8400  
Green Bay, WI 54308-8400  
(920) 468-8100

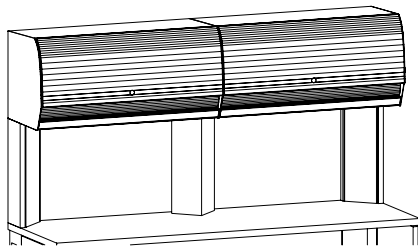

Implemented By: KI-KP  
Date: 1/1/2008

Notification By: Scott Vissers

Component Product Title: **Volition Desking Venus overhead 66" & 72" single shelf design**  
Effective: **1/21/2008** ECN: #11116

Description of Change: **Based on feedback from customers, on the 66" and 72" Venus overheads we have redesigned the cabinet to eliminate the 3<sup>rd</sup> center stanchion. Instead of receiving two separate overheads for these units, they will now be combined into a one-shelf single unit. The unit will still have two separate doors with a divider at the midpoint of the cabinet.**

Current Style

New 1-Shelf Style

- **The 66" unit will no longer consist of a 30" door and a 36" door. It will now consist of two (2) 33" doors to create a more symmetrical look.**

Reason for Change: Improved aesthetics, provides more worksurface open space and ease of installation.

Action Required: Model numbers for the 66" and 72" overhead will be changing. The letter "D" has been added after the size so the new model numbers are as follows:

- VNO\_66D(color options) VNO\_72D(color options)  
( \_ = "S" for Solid, "F" for Fabric)

If you are using the OEI Encompass CAD™ software to plan your furniture layouts, it will automatically begin placing the new 1-shelf overheads as of 1/21/08 and the old multi-unit style will be grayed out so it cannot be speced.

If you do not regularly update your Encompass CAD™ (formerly FMCS) please contact Sandra Welch at 920-406-3497 or Jeff Bohlman at 920-406-3302 for instructions on how to do so.

Any literature that contains the old style multi-unit overheads will be revised as the literature is reprinted. Please make note of the added "D" in the model number on any pages showing the old style in literature you may have on hand. The new Volition color brochure shows these 1-shelf overheads.

**Customer Notification:** UNICOR DC, Englewood & Coleman, all State customers.
