Change Notice No. 104

Implemented By: Merrill Rosenow

Notification By: Scott Vissers

Date: 09/04/08

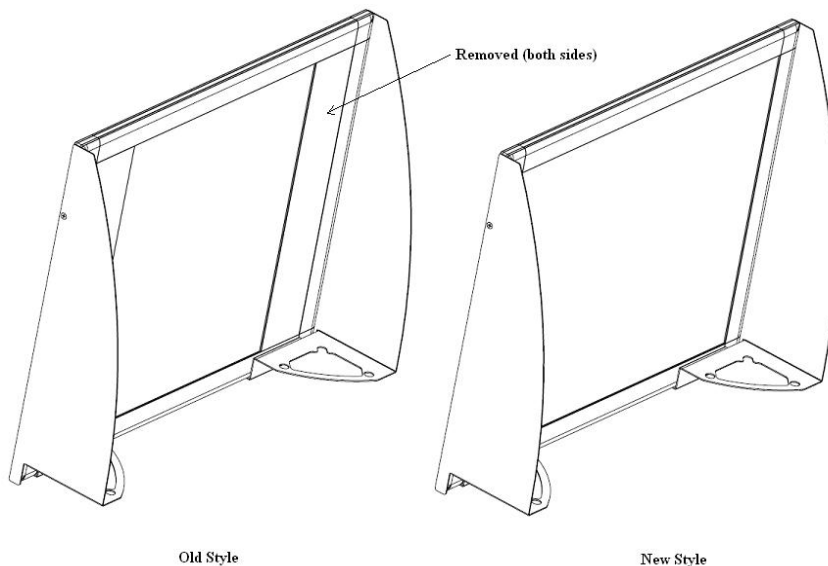

Component Product Title: Volition Privacy Screens

Effective: 09/05/08

ECN: 11458

Description of Change:

1. Remove the bayonet brackets 55131 and any associated parts from all Volition privacy screens.
2. Discontinue the stackable screen option from the Volition/Bravo offering.
3. Increase the core size of screens with bayonet brackets to accommodate for the extra space created from the removal of the brackets.

Reason for Change: The stacking option is being removed because of a lack of volume in sales. This will improve the aesthetics, ease of assembly, and increase the tackable area of the screens.

Action Required: Model numbers will remain the same, but assembly instructions will be different. This will be implemented on existing orders. If you receive a screen without the bayonet brackets, please refer to new assembly instructions of Volition screens.

Customer Notification: MD, VA, WA, WI, Unicor Coleman
