Change Notice No. 108

Implemented By: Scott Vissers

Notification By: Scott Vissers

Date: 10/23/09

Component Product Title: UltraLite Tables

Effective: When inventory is exhausted.

Description of Change:

1. UltraLite tables are converting to UltraLite2 tables.
2. UltraLite2 tables will only be available as a pass-through option.
3. The offering of UltraLite2 tables will increase to include the chair, 60", 72" and 96" rectangular tables, 48", 60" and 71" round tables and a picnic table with a 30x72" top.
4. The picnic table will require some assembly.

Action Required: Inventory levels of the UltraLite are nearly exhausted. Please contact your sales representative for a current update of inventory. UltraLite2 is available now; please update your model numbers to represent the new available offering.

ULTRALITE® 2 Tables

For attractive, lightweight, durable tables, look no further than the UltraLite 2 line. Made from high-density polyethylene plastic, UltraLite 2 Folding Tables are designed to hold up to heavy use, even in the most extreme conditions. These tables are easy to clean, easy to use, and easy to store, due to the innovative design of the folding legs.

The 1-1/8" steel tubular legs fold securely into the molded tops, allowing the tables to stack flat and reducing the threat of shifting during vertical or horizontal storage. Although

UltraLite 2 tables were designed to be easy to carry, an optional table truck makes moving large numbers of tables a snap.

Because they are so easy to set-up and store, UltraLite 2 is the perfect choice for frequently reconfigured spaces like conference rooms, airport screening areas, schools, and healthcare facilities. These tables and chairs are also perfect for corporate and social gatherings. Business luncheons and school functions showcase their strength, long life, and ability to repel moisture.

A unique lightweight design reduces set up times by making full-size tables easy to handle.

Users of all shapes and sizes appreciate the stability and strength of the 1-1/8" steel frame of UltraLite 2 folding chairs.

UltraLite 2 chairs are quick and easy to carry because of the innovative molded backs.

Steel crossbars are welded in place to provide maximum rigidity for table legs.

ULTRALITE® 2 Tables

AVAILABLE TOP SIZES

UltraLite 2 tables also stack up favorably against the competition. Not only do they cost less than folding tables with wood cores or laminate surfaces, they also perform in environments that wooden tables can't, like the outdoors.

Weather-resistant features make UltraLite just as durable outside as they are inside. The grey polyethylene tops are impervious to water and contain UV inhibitors to prevent fading and sun damage. Black powder coating gives the steel frames a scratch-resistant

all-weather finish that won't crack, chip or peel.

Seven generous sizes ensure that UltraLite 2 tables won't just go anywhere; they will accommodate everyone. The tables are available with 30x60", 30x72", and 30x96" rectangular tops, as well as 48", 60", and 72" round tops. A picnic table configuration is also available with a 30x72" top and two attached benches for seating. No matter where you are setting up, UltraLite 2 tables are your most practical choice.

Tabletops of high-impact polyethylene are blow-molded for optimum consistency and durability.

UltraLite 2's legs snap securely into the molded tops for easy storage.

Tables stack easily and store flat anywhere, but optional table trucks make storage mobile.

Heavy-duty steel frames are built to withstand years of rugged use.
