Change Notice No. 110

Implemented By: OEI

Notification By: Scott Vissers

Date: 12/04/09

Component Product Title: Series XXI Filing Systems

Effective: 12/11/09

ECN: 11676

Description of Change:

1. OEI has discontinued some low volume lateral files, kiosks, and pedestal files. See attached document for a complete listing of the discontinued files.
2. Hanging BBBB, BBF, and FF pedestals were eliminated as part of this change. We are recommending using worksurface supporting pedestals instead of these hanging pedestals.

Reason for Change: Due to a lack of volume, OEI is no longer able to offer these models as standard product. All of these products will be available through our specials process. The hanging pedestals were eliminated due to quality concerns when using these pedestals. The extra weight from these large pedestals was causing some worksurfaces to sag. Using worksurface supporting pedestals instead will prevent any sagging from occurring.

Action Required: Remove these items from your standard offering. Convert all BBBB, BBF, and FF hanging pedestals into worksurface supporting pedestals. If any of these items are needed, you will have to contact your customer service representative or sales representative to write a special.

Customer Notification: All State Customers
