

ULTRALITE® Tables

For attractive, lightweight, durable tables, look no further than the UltraLite line. Made from high-density polyethylene plastic, UltraLite Folding Tables are designed to hold up to heavy use, even in the most extreme conditions. These tables are easy to clean, easy to use, and easy to store, due to the innovative design of the folding legs.

The 1-1/8" steel tubular legs fold securely into the molded tops, allowing the tables to stack flat and reducing the threat of shifting during vertical or horizontal storage. Although

UltraLite tables were designed to be easy to carry, an optional table truck makes moving large numbers of tables a snap.

Because they are so easy to set-up and store, UltraLite is the perfect choice for frequently reconfigured spaces like conference rooms, airport screening areas, schools, and healthcare facilities. These tables and chairs are also perfect for corporate and social gatherings. Business luncheons and school functions showcase their strength, long life, and ability to repel moisture.

A unique lightweight design reduces set up times by making full-size tables easy to handle.

Users of all shapes and sizes appreciate the stability and strength of the 1-1/8" steel frame of UltraLite folding chairs.

UltraLite chairs are quick and easy to carry because of the innovative molded backs.

Steel crossbars are welded in place to provide maximum rigidity for table legs.

ULTRALITE® Tables

UltraLite tables also stack up favorably against the competition. Not only do they cost less than folding tables with wood cores or laminate surfaces, they also perform in environments that wooden tables can't, like the outdoors.

Weather-resistant features make UltraLite just as durable outside as they are inside. The speckled white polyethylene tops are impervious to water and contain UV inhibitors to prevent fading and sun damage. Black powder coating gives the steel frames a scratch-resistant

all-weather finish that won't crack, chip or peel.

Seven generous sizes ensure that UltraLite tables won't just go anywhere; they will accommodate everyone. The tables are available with 30x60", 30x72", and 30x96" rectangular tops, as well as 48", 60", and 71" round tops. A picnic table configuration is also available with a 30x72" top and two attached benches for seating.

No matter where you are setting up, UltraLite tables are your most practical choice.

Tabletops of high-impact polyethylene are blow-molded for optimum consistency and durability.

UltraLite's legs snap securely into the molded tops for easy storage.

Tables stack easily and store flat anywhere, but optional table trucks make storage mobile.

Heavy-duty steel frames are built to withstand years of rugged use.
