

BREATHE[®] Seating

Breathe Task Chairs have independently adjustable arms over a range of 2.5".

Breathe Task Chair

Today's fast-paced office is the perfect place for the contemporary style and unmatched comfort of Breathe Seating. The sleek styling of the high-back task chair makes it a perfect addition to any organization.

The Breathe Seating line features a beautifully sculpted polypropylene back structure wrapped with a double layer of nylon mesh fabric that offers the ultimate in support and breathability.

A contoured foam seat covered with the same soft and durable 2-ply athletic mesh improves ventilation and reduces fatigue. For even more comfort, users can adjust the seat height and back tension of the chairs with an easily accessible knob and lever beneath the seat.

The Breathe Task Chair features a synchronous knee-tilt mechanism with a 2:1 (back-to-seat) ratio. The tilt-lock lever can be set in any of 3 lock positions or remain unlocked, allowing the seat to free float.

Mesh-back breathability provides comfort, support, and style. The adjustable lumbar pad is built into the chair frame for added durability on Breathe Task and Guest Chairs.

The task chair's optional headrest can be positioned and adjusted to offer all users optimum comfort.

A synchronous knee-tilt mechanism, back tension knob, and seat height adjustment all come standard on Breathe Task Seating.

The Breathe Task Chair's heavy-duty, 5-star die-cast aluminum base offers built-in molded slip/scuff protectors and durable dual-wheel carpet casters.

BREATHE® Jr. Seating

Task Chair

Breathe® Sled Base

Breathe Jr. & Breathe Sled Base Chairs

Across the Breathe line, soft padded arms and lumbar support further enhance comfort. The unique lumbar pad of the Breathe Jr. can be easily adjusted vertically and horizontally from a seated position.

Breathe Guest Chairs provide the perfect counterpoint to the task chairs. Not only do they bring a unified look to office spaces, they allow guests to experience the same comfortable, contemporary Breathe seat and back.

Complementing the other members of the line, the

mid-back Breathe Jr. distills contemporary style to bring it to an even wider audience. In addition to its clean lines, Breathe Jr. features a synchronous knee-tilt mechanism that free floats or locks in the upright position.

Employees in the modern office spend a lot of time at their desks, making comfort and productivity key concerns. Now you have a seating option that offers all the style and grace of fine office seating for every budget—a truly refreshing proposition.

Height-adjustable padded arms are standard on the Breathe and Breathe Jr. Task Chairs.

Vertically and horizontally adjustable lumbar support is integrated into the frame of the Breathe Jr. back.

A scuff-resistant 5-star base of fiberglass-reinforced nylon offers dual-wheel carpet casters. Breathe Jr.'s mechanism offers seat height and back angle adjustments.

Breathe Guest Chairs come equipped with glides to help protect the floor and chair frame.
