

# Ithaca® Ultra Chair

## FEATURES AND BENEFITS

### “What is Ithaca Ultra?”

Ithaca Ultra is a task chair with a revolutionary new design, combining an ultra-plush seat with a breathable mesh back.

Soft, mesh back conforms to your back. Mesh is made of polyethylene elastomeric and polyester.

High- and mid-back versions available (mid-back has height adjustment of 3"; high-back has no height adjustment)

Nylon with fiberglass reinforced back structure.

Soft, contoured seat foam comes standard. Memory foam is optional. Pliable, stretchy materials offer maximum comfort; or select other fabrics, including vinyl or leather.

4 arm choices, including 360° pivoting arm cap. Arm caps made of molded urethane.

Synchronous tilt mechanism (2:1 ratio) for “high-end” comfort. Choose free-float or 3-position back lock-out.

Seat depth slide is standard, for varying leg lengths. It's spring loaded offering several lock-out positions.

Pneumatic cylinder provides 5" of seat height adjustment.
