Deriving Maximum Benefits From Your Sterling 2 Low Back Managerial Chair with Knee-Tilt Mechanism

A. Seat Height Adjustment

To lower seat height, pull the lever toward the seat while seated in the chair. To raise the seat, lift body weight slightly off chair while pulling the lever toward the seat. Release lever to lock in position.

B. Lever Lock Device (5 Locking Positions or Free Float)

Rotate lever downward to lock the tilt action. Rotate lever upward to release to the free float position. Shift body weight slightly to engage or disengage lock function.

C. Tilt Tension Adjustment

To adjust chair's tilt tension, locate the hand knob on the front of the mechanism. While seated in the chair turn the hand knob clockwise to increase tension. Turn the hand knob counterclockwise to decrease tension.

Fully Adjustable Arm Option

D. Arm Width Adjustment

To adjust arm width, pull up on lever moving arm horizontally in or out to one of three adjustment settings. Release lever to lock in place.

E. Arm Height Adjustment

To adjust arm height, pull up on button located at the top of the arm assembly. Raise or lower arm to the desired height and release lever to lock in position.
